Skills

- BACK END DEVELOPMENT | Python • Django • Mysql
- FRONT END DEVELOPMENT | Html • Css • Bootstrap • Javascript •
- SOFT SKILLS | Team player • Bias for action • Deliver results

Projects

- **PETSTORE**
  • Developed a PETSTORE website using Django, HTML, CSS, JavaScript, Bootstrap, MySQL, and Python.
  • Implemented features allowing users to browse and purchase pets, add them to their cart, proceed to checkout, make online payments, and provide their address for delivery.
  • Implemented user account creation with email confirmation upon registration.
- **EGGCELLENTHUB**
  • Created a social media application named "Eggcellent Hub" using HTML, Python, Django, MySQL, CSS frameworks UIkit and Tailwind.
  • Designed features enabling users to post stories, chat with others, like photos, comment on posts, create accounts, and set profile photos.
- **QR CODE GENERATOR**
  • Developed a QR Code Generator using HTML, CSS, and JavaScript.
  • Integrated an API to allow users to input content and generate QR codes based on the input.
- **Student result management system**
  •Student Result Management System is a web-based application that mainly focuses on providing the results to the student and the faculty.
  •The main objective of this study is to use a computerized system to manage and declare student outcomes more effectively and automatically.
